Children’s Hospital Association Selects Progyny as Exclusive Partner for Fertility and Family Building Benefits

March 22, 2023

As the vendor of choice, Progyny’s comprehensive benefit with proven clinical outcomes will be recommended to the more than 220 children’s hospitals in the CHA network

NEW YORK, March 22, 2023 (GLOBE NEWSWIRE) -- Progyny, Inc. (Nasdaq: PGNY) a leading benefits management company specializing in fertility and family building benefits solutions, announced today its partnership with Children’s Hospital Association (CHA), a national voice for more than 220 children’s hospitals with over two million covered lives. Progyny’s selection as CHA’s preferred and exclusive partner means all participating member hospitals will be able to vet and contract directly with the benefit provider that delivers best-in-class care that consistently results in happier and healthier families at a lower cost than other family building solutions in the market.

“Progyny is honored to partner with CHA to provide its member hospitals with equitable fertility and family building benefits that drive better clinical outcomes and saves healthcare dollars,” said Pete Anevski, Progyny’s CEO. “Being chosen by CHA, one of the most well-known organizations in healthcare, shows the trust Progyny has garnered within the industry to support our healthcare heroes with their family building dreams.”

Progyny’s fertility and family building solution offers a customizable plan design that provides end-to-end episodic coverage, empowering providers, and patients to pursue care plans that best serve their individualized needs, regardless of biological or financial barriers. This results in healthier pregnancies and babies, all while saving employers’ healthcare dollars. Additionally, as the healthcare industry faces staffing shortages and high turnover, the CHA hospital members that opt for Progyny’s benefit will have a competitive edge when it comes to recruiting and retaining top talent.

“At CHA, we understand how important the health and well-being of hospital staff is, especially at children’s hospitals, because we know it goes hand-in-hand with the care received by patients,” said Kristie Seibert, GBDS, Director of Insurance Services at Children's Hospital Association. “We partnered with Progyny because we knew we could trust them to provide the high standard of care, education, support, and empathy that we hold ourselves to.”

Eligible employees and members of Children’s Hospital Association that opt for Progyny’s solution will gain convenient access to over 950 of the nation’s most sought-after fertility specialists so they can choose a physician and path to parenthood that best meets their needs, as well as concierge support from a dedicated fertility coach to ease the stress and anxiety common to fertility treatment and family building journeys.
