PROGYNY RECOGNIZED AS ONE OF THE BEST PLACES TO WORK IN HEALTHCARE IN 2018

May 29, 2018

NEW YORK, May 29, 2018- Progyny, the leading fertility benefits management company, announced today it has been selected by *Modern Healthcare* as one of the 2018 Best Places to Work in Healthcare.

The award recognized the top 150 companies in the healthcare industry. The list, in partnership with the Best Companies Group, is based on a comprehensive employee survey that rates employee job satisfaction, work-life balance, benefits and more.

“It is an honor to be part of this prestigious list,” said Cassandra Pratt, VP of People at Progyny. “In the last year, we have rolled out new programs that touch on personal development, company growth, and a work environment that is transparent, collaborative and cohesive.”

“Whether on the frontline or in the top office, healthcare employees witness moments that can either inspire or dishearten them. That can take a toll on an individual and healthcare organizations must take extra steps to ensure that highs and lows during the workday don’t impact engagement or performance,” said Modern Healthcare Editor Aurora Aguilar. “This year’s best places to work, voted on by the employees themselves, exemplify what it takes to maintain dedication and satisfaction among its employees and that is the key to good patient care.”

Progyny aims to cultivate an environment that promotes leadership, innovation, and the ability to make an impact on the company’s mission to ensure anyone can have a child when they want. Progyny’s employee perks include a mentorship program, monthly training seminars, leadership and personal development programs, family friendly benefits including fertility coverage, fully stocked kitchens with healthy food, competitive bonus program, and more.

Progyny will be honored at the 2018 Best Places to Work in Healthcare awards gala on Thursday, September 27, 2018, at the Renaissance Dallas.
